One of our Board-Certified providers will review the results with the patient and provide recommendations and lifestyle counseling. We will fax a copy of the report to your office.

Pinnacle Communication Guidelines

Respected referring physician,

We take pride in being efficient and thorough when contacting and caring for your patients. In attempt to have clear communication and meet your needs, we'd like to provide insight on our processes and expected timeframes of communication regarding the status and outcome of your referral.

- Once a referral is received, we will send a letter confirming that we did indeed receive your referral 24-48hrs from the time we receive it. If you have not heard from us within 1 week of sending a referral, please re-send or call us as we most likely did not receive it.
- If/when successful contact has been made with the patient, we typically get them in for their fibroscan appointment within 1-2 weeks, **dependent on their availability**. We review the results, go over dietary and lifestyle recommendations with the patient immediately following their scan at the same appointment.
- If your patient decides to enter a clinical trial, we will notify you of the name of the trial. Dependent on which trial they enter, there may be limited information we can provide to you regarding their labs and testing. This is due to regulations by sponsors and FDA on blinded and un-blinded stipulations. However, the results will be reviewed with your patient at their visits.
- We attempt to contact each patient 3 times prior to sending you a letter letting you know we were unable to get a hold of the patient to schedule.
- Overall, you should receive an "outcome" letter from Pinnacle within 30 days of sending a referral informing you of the progress made with the patient.

Thank you for your partnership and trusting us with your patients' care.

Respectfully,

Your Pinnacle Team
